

Inria StartupStudio

The Program that supports
Digital Deeptech Entrepreneurship

Grégoire Maurice (Startup Lille)
gregoire.maurice@inria.fr

Inria

The six pillars of the program

Funding

The salaries of up to 2 people for 1 year and a budget (10k€ max)

Support

With the 4 hands by the team of the Inria Center and of the Startup Studio

Events

With the ISS community and much more

Housing

In one of the 9 Inria centers in France

Training

On all aspects of entrepreneurship

Networking

Access to regional, national and international contacts

In return of a license for the intellectual property,
*Inria will take 5% of your startup
when it is created.*

The selection criteria

A startup project
with a **digital
deeptech DNA**

The technical capacity
to develop **the Proof of
Concept**

The opportunity to
**fully engage in the
program**

The Selection Process

Selection committees take place every month. The 3 steps to join the program:

1/ Let's explore together the
value of the program for
your project

2/ Present your project to the
startup studio selection
committee

3/ If you are selected, join the
program in the following months
in one of the 9 Inria centers

Between 2019 and 2023...

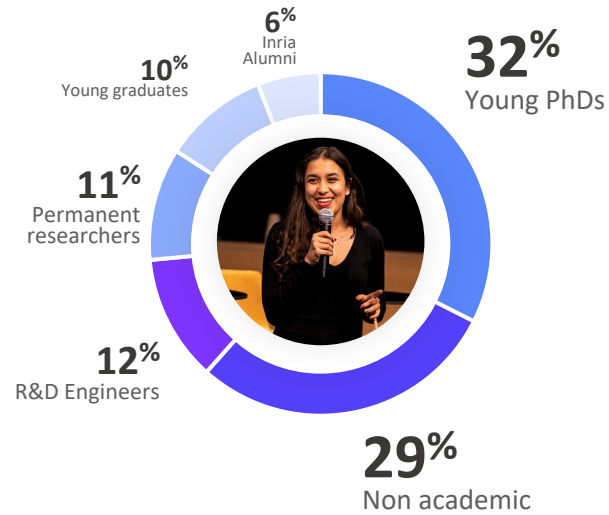

112
selected projects

29
created startups

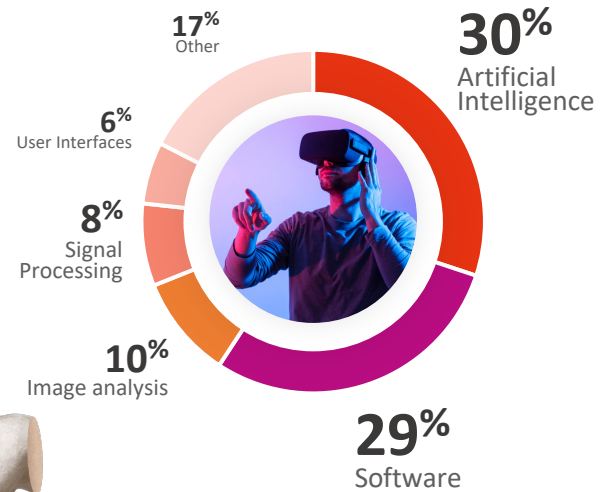

The Inria Startup Studio program draws on Inria's 30 years of experience and know-how in creating start-ups.

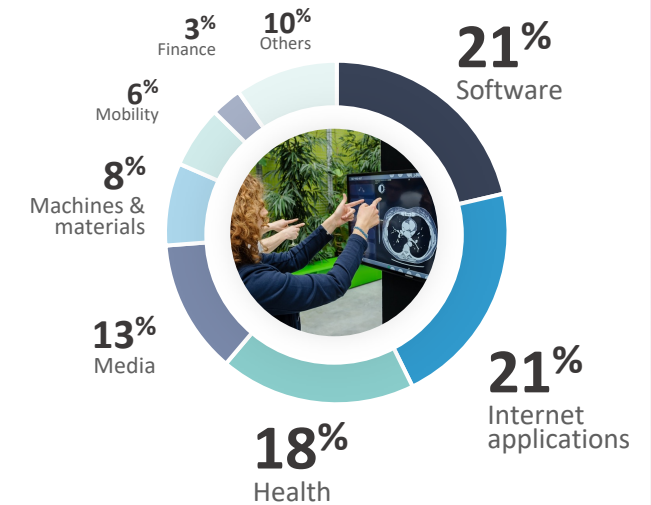

Status
